

Fundamentals of the Conservation of Photographs

SESSION: Handling Issues and Guidelines for Photographs

INSTRUCTOR: Tram Vo

SESSION OUTLINE

ABSTRACT

This part of the course is designed to teach the participants to care for and to handle photographs. Emphasis is on guidelines for safely handling and moving different types of photographs as well as preparing them for examination, analysis and other activities.

LEARNING OBJECTIVES

As a result of this session, participants should be able to:

- Safely handle photographs; prepare proper support materials as needed
- Prepare photographs for routine examination, analysis and other activities

CONTENT OUTLINE

- PowerPoint Presentation on Handling and care of photographs
- Examination of damaged sample photos to illustrate the potential effects of improper handling procedures
- Practical work with study collection material to demonstrate principles
