The Shapes around Us

Your name _____________________________________________________________

Your teacher or chaperone will direct you to look at one work of art in this gallery. Write down:

   Artist’s name __________________________________________________________

   Title of the work of art ________________________________________________

The Getty Center and its works of art are full of shapes.

**Describe** where you can find these shapes in this work of art.

- **Squares:** ____________________________________________________________________________________________
  ____________________________________________________________________________________________

- **Triangles:** _________________________________________________________________________________________
  _________________________________________________________________________________________

- **Rectangles:** ______________________________________________________________________________________
  _______________________________________________________________________________________

Repeated shapes create patterns. Can you find any?

**Draw** them here!
